

Transference-Focused Psychotherapy for Borderline Personality Disorder: A Clinical Guide (Paperback)

By Frank E. Yeomans, John F. Clarkin, Otto F. Kernberg

American Psychiatric Association Publishing, United States, 2014. Paperback. Condition: New. Language: English. Brand new Book. Transference-Focused Psychotherapy for Borderline Personality Disorder: A Clinical Guide presents a model of borderline personality disorder (BPD) and its treatment that is based on contemporary psychoanalytic object relations theory as developed by the leading thinker in the field, Otto Kernberg, M.D., who is also one of the authors of this insightful manual. The model is supported and enhanced by material on current phenomenological and neurobiological research and is grounded in real-world cases that deftly illustrate principles of intervention in ways that mental health professionals can use with their patients. The book first provides clinicians with a model of borderline pathology that is essential for expert assessment and treatment planning and then addresses the empirical underpinnings and specific therapeutic strategies of transference-focused psychotherapy (TFP). From the chapter on clinical assessment, the clinician learns how to select the type of treatment on the basis of the level of personality organization, the symptoms the patient experiences, and the areas of compromised functioning. In order to decide on the type of treatment, the clinician must examine the patient's subjective experience (such as symptoms of anxiety or depression), observable behaviors...

Reviews

The ideal ebook i possibly study. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.
